

MAYBE YOU THOUGHT MODERN LUXURY VACATIONS WEREN'T FOR KIDS.  
 THINK AGAIN.  
 NOW FEATURING MORE KID-APPROVED COOL FACTOR THAN EVER.

We go all out to make your vacation a modern, upscale experience that will leave you completely restored and renewed. And, we do the same for your kids. We understand the importance of your family time together. That's why we focus our attention on creating opportunities for you, your kids, and your whole family.

What exactly are modern luxury experiences for kids? We're glad you asked. Consider this for starters...

For our younger **"foodies"** we offer a variety of complimentary, culinary experiences geared toward the particular tastes of these up-and-coming gourmets, including Cupcake Decorating Classes, Future Chefs Hands-On Classes (including lunch), and Pizza Making Classes. Plus, we offer Back of the House Tours that give kids an exclusive insight into how the chefs work their magic in providing delicious, made-from-scratch meals for the entire ship every day and night.

For our avid **"gamers"** they'll be plugged-in to experiences using the latest gadgets, games, and devices. Start with our Xbox partnership. We've outfitted our ships with dedicated Xbox stations and mobile consoles to feature one of the largest game and entertainment experiences at sea. Whether there's a tournament or gaming theme night, there's something for everyone—from our youngest gamer to our most savvy teens.

For our budding **"directors"** we have the coolest video project afloat—we call it iTake. First, our visionaries create a storyboard for their videos. Then, armed with GoPro high definition, wide-angle video cameras (used to film extreme sports and other cool events), they'll head out to get the shots they planned—even if they're underwater! After the filming is through, they'll learn how to edit their videos in our cyber chic Celebrity iLounge<sup>SM</sup> to create amazing vacation videos.

For our new-fashioned **"spa enthusiasts"** there's Zspa, where they'll have every opportunity to satisfy their love of downtime and soothe their senses. ZSpa features treatments geared specifically for the Z generation, including Fabulously Fruity or Acne Attack Facials and Surfer's Scrub exfoliating body treatment. We've even built in the opportunity for a little parental unwinding (and bonding) by adding Mother/Daughter and Father/Son massages to the menu. And for the beauty scene, there's Magical Manicures, SoleMate pedicures, and Truth or Hair styling sessions with our salon pros.

For our in-training **"sports fans"** there's a wide variety of activities to sharpen their reflexes, build their skills, and get them ever closer to competition-ready status. They'll stay at the top of their game at the Sports Court and the Lawn Club and can participate in free play and organized activities and tournaments, where our athletes can shoot hoops; kick (or block) goals; dodge balls; swing the mallet; bowl on the green; bump, set, and spike in the pool, and so much more.

**The Anturus Explorer Academy**, is designed for Junior Cruisers between 8 and 14 years old. JC's outside this age range, however, can still take part; they'll learn about the world around us and those beyond. By the end of their trip they'll be one step closer to becoming an Anturus young explorer. The sessions will be a mix of media on TV screens, activities they'll do themselves, experiments they'll do together and journeys they'll take as a group. They'll hear from The Anturus team at the start of each session and a little bit about what they're going to be finding out about, then they'll have fun doing the experiments and activities together.

In fact, we've created such diverse and exciting modern luxury experiences for our younger travelers, we're pretty sure you'll wish you were a kid again on a Celebrity Cruises vacation with your parents.

Because we believe every moment of your family vacation should be measured by just how far it takes you from the ordinary.
