Royal Caribbean International has delivered incredible firsts at sea for decades, such as the rock wall, ice-skating rink, and FlowRider surf simulator. With the introduction of Quantum of the Seas in Fall 2014 (and with the introduction of Anthem of the Seas in 2015), Royal Caribbean takes WOW innovations to new heights—literally—with the unveiling of North Star, an awe-inspiring experience where a jewel-like glass capsule takes guests on a spectacular journey more than 300 feet in the air where they can take in breathtaking views of the ocean, the ship and the exciting destinations we visit. Another first at sea allows guests to fly—that’s right, Fly! RipCord by iFly, the first skydiving simulator at sea, lets guests experience the thrill and exhilaration of flying. And guests can also check out the first bumper car and roller-skating venues at sea. Prepare your clients for a world of WOW.
